BEFORE AND AFTER

HSE

A green and sustainable environment is what our host government or community desires. However, most production operations especially hydrocarbon exploration and production operations (onshore or offshore) are associated with many environmental hazards that need to be mitigated or controlled. Due to these environmental issues, it is necessary to carry out environmental studies on routine or special case basis.

With the help of our world class laboratories, we render holistic studies and deliver accurate and detailed reports on all our environmental studies on time and budget.

Categorized below are the services that we have proven our competence:

**SAFETY**

Development and Review of Operational safety case

HAZID/HAZOP review and update

Installation and maintenance of safety systems such as:

Security doors

Access control

Smoke alarm/CCTV

Safety consultancy

Health Safety and Environment training

Safety Audit of Sta and Company

## ENVIRONMENTAL

### ☀ Environmental Studies:

- Environmental Impact Assessment (EIA)

- Baseline Studies
- Oil Spill Report

### ☀ Waste Management

### ☀ Environmental Design

### ☀ Regulatory Compliance Monitoring

### ☀ Sea Bed Survey

### ☀ Tank Farm Cleaning (Onshore and O shore)

### ☀ Oil Spill Management And Contingency Plan

## ENGINEERING

### ☀ Piping & Instrumentation Design (P&I D)

### ☀ Process Design

### ☀ Environmental Design

### ☀ Installation and Maintenance of:

- HVAC system
- Process Equipment: Valves, Pumps, Compressors
- Air Conditioning/Cooling Systems

# Why Choose Emaros Global Resources Ltd?

Why Choose Emaros Global Resources Ltd?

With dedicated professionals our success will be built on strong working partnerships, timely delivery,

good quality work, attention to detail, and the recruitment of highly skilled personnel.

## Emaros Global Resources Ltd commitment

We are committed to ensuring the highest level of health and safety standards on our projects and give clients value for their money.

# OUR CLIENTS

## HEALTH, SAFETY AND ENVIRONMENT (HSE) AND COMMUNITY AFFAIRS

As is the case with every human industry, energy exploration and development has an impact on the environment. We reduce such impact to as low as reasonably practicable. GSE Engineering will take all possible steps to preserve the safety, health and security of all employees, contractors' employees and host community members who may be affected by our operations and to maintain good relationship in its field activities with host communities. This assists to prevent damage to and/or loss of equipment and company property. Thus, the Company recognizes host communities as very important PARTNERS whose willingly active support is indispensable to business success on field assignments. We therefore place emphasis on enhancing relationships with the host communities by:

- ✦ Having a close and continuing association based on mutual respect, trust and cooperation between the Company and its host communities;
- ✦ Optimizing efforts toward socio-economic growth and manpower development of the host communities by supporting projects that help them sustain and improve their economic and social development.

The company's Board of Directors and management consider the safety and health of its personnel and protection of its facilities and the environment where it operates to be vital and of paramount importance. Safety is good business and Emaros Global Resources Ltd. will conduct all its operations in a safe, efficient and environmentally sound manner. Emaros Global Resources Ltd. is therefore dedicated to continuous efforts to make its operations compatible with protecting people, property and the environment. Our goal is to achieve safety, health and environmental excellence in all of our business practices and operations. The Company's HSE policy is implemented through the oversight of a committee on CASHES headed by an Executive

Director and is based on eight ten guiding principles outlined below:

- Commitment to HSE
- Training of All Personnel Involved in Our Activities
- Accountability
- Management Systems and Standards
- Efficient Risk Management
- Legislative Compliance
- Effective Monitoring, Audits and Reviews
- Continuous Improvement

# Certificates / Memorandum
